

DIGITAL ENTREPRENEURSHIP TC

20-31 JULY, 2023
ABOVYAN, ARMENIA
2 PARTICIPANTS

Future in Our Hands
Youth NGO

Stichting Rajodoon

ABOUT TC

Entrepreneurship is an important aspect of the development of any country. The digital entrepreneurship education is a new approach to this path and a challenge in educational system, which will prepare youth to face of technological change. So this project idea is to develop knowledge of technological platform use, which can bring to behavioral change and can create opportunities for youth mainly from rural areas, to develop their entrepreneurial skills and to create workplaces or to develop already existing businesses. This digitalization process can create an opportunity for youth to develop their networks across their country and in participating countries, to get to know business communities and to widen their opportunities in their own business idea creation. In particular, youth will use digital tools to learn entrepreneurial skills such as business feasibility, market research, business plan writing, project management, creating marketing plan, sales skills and digital platforms for their individual products.

key skills to develop

Teamwork and leadership

Communication and listening

Emotional intelligence

Collaboration and networking

Analytical thinking and problem solving

Critical thinking

Strategic thinking and planning

Public speaking

Body signs

Time management

Innovation and creativity

Finance, marketing, project management

Customer service

Motivated to gain new skills and share in their local communities

Willing to stand as coaches for youth

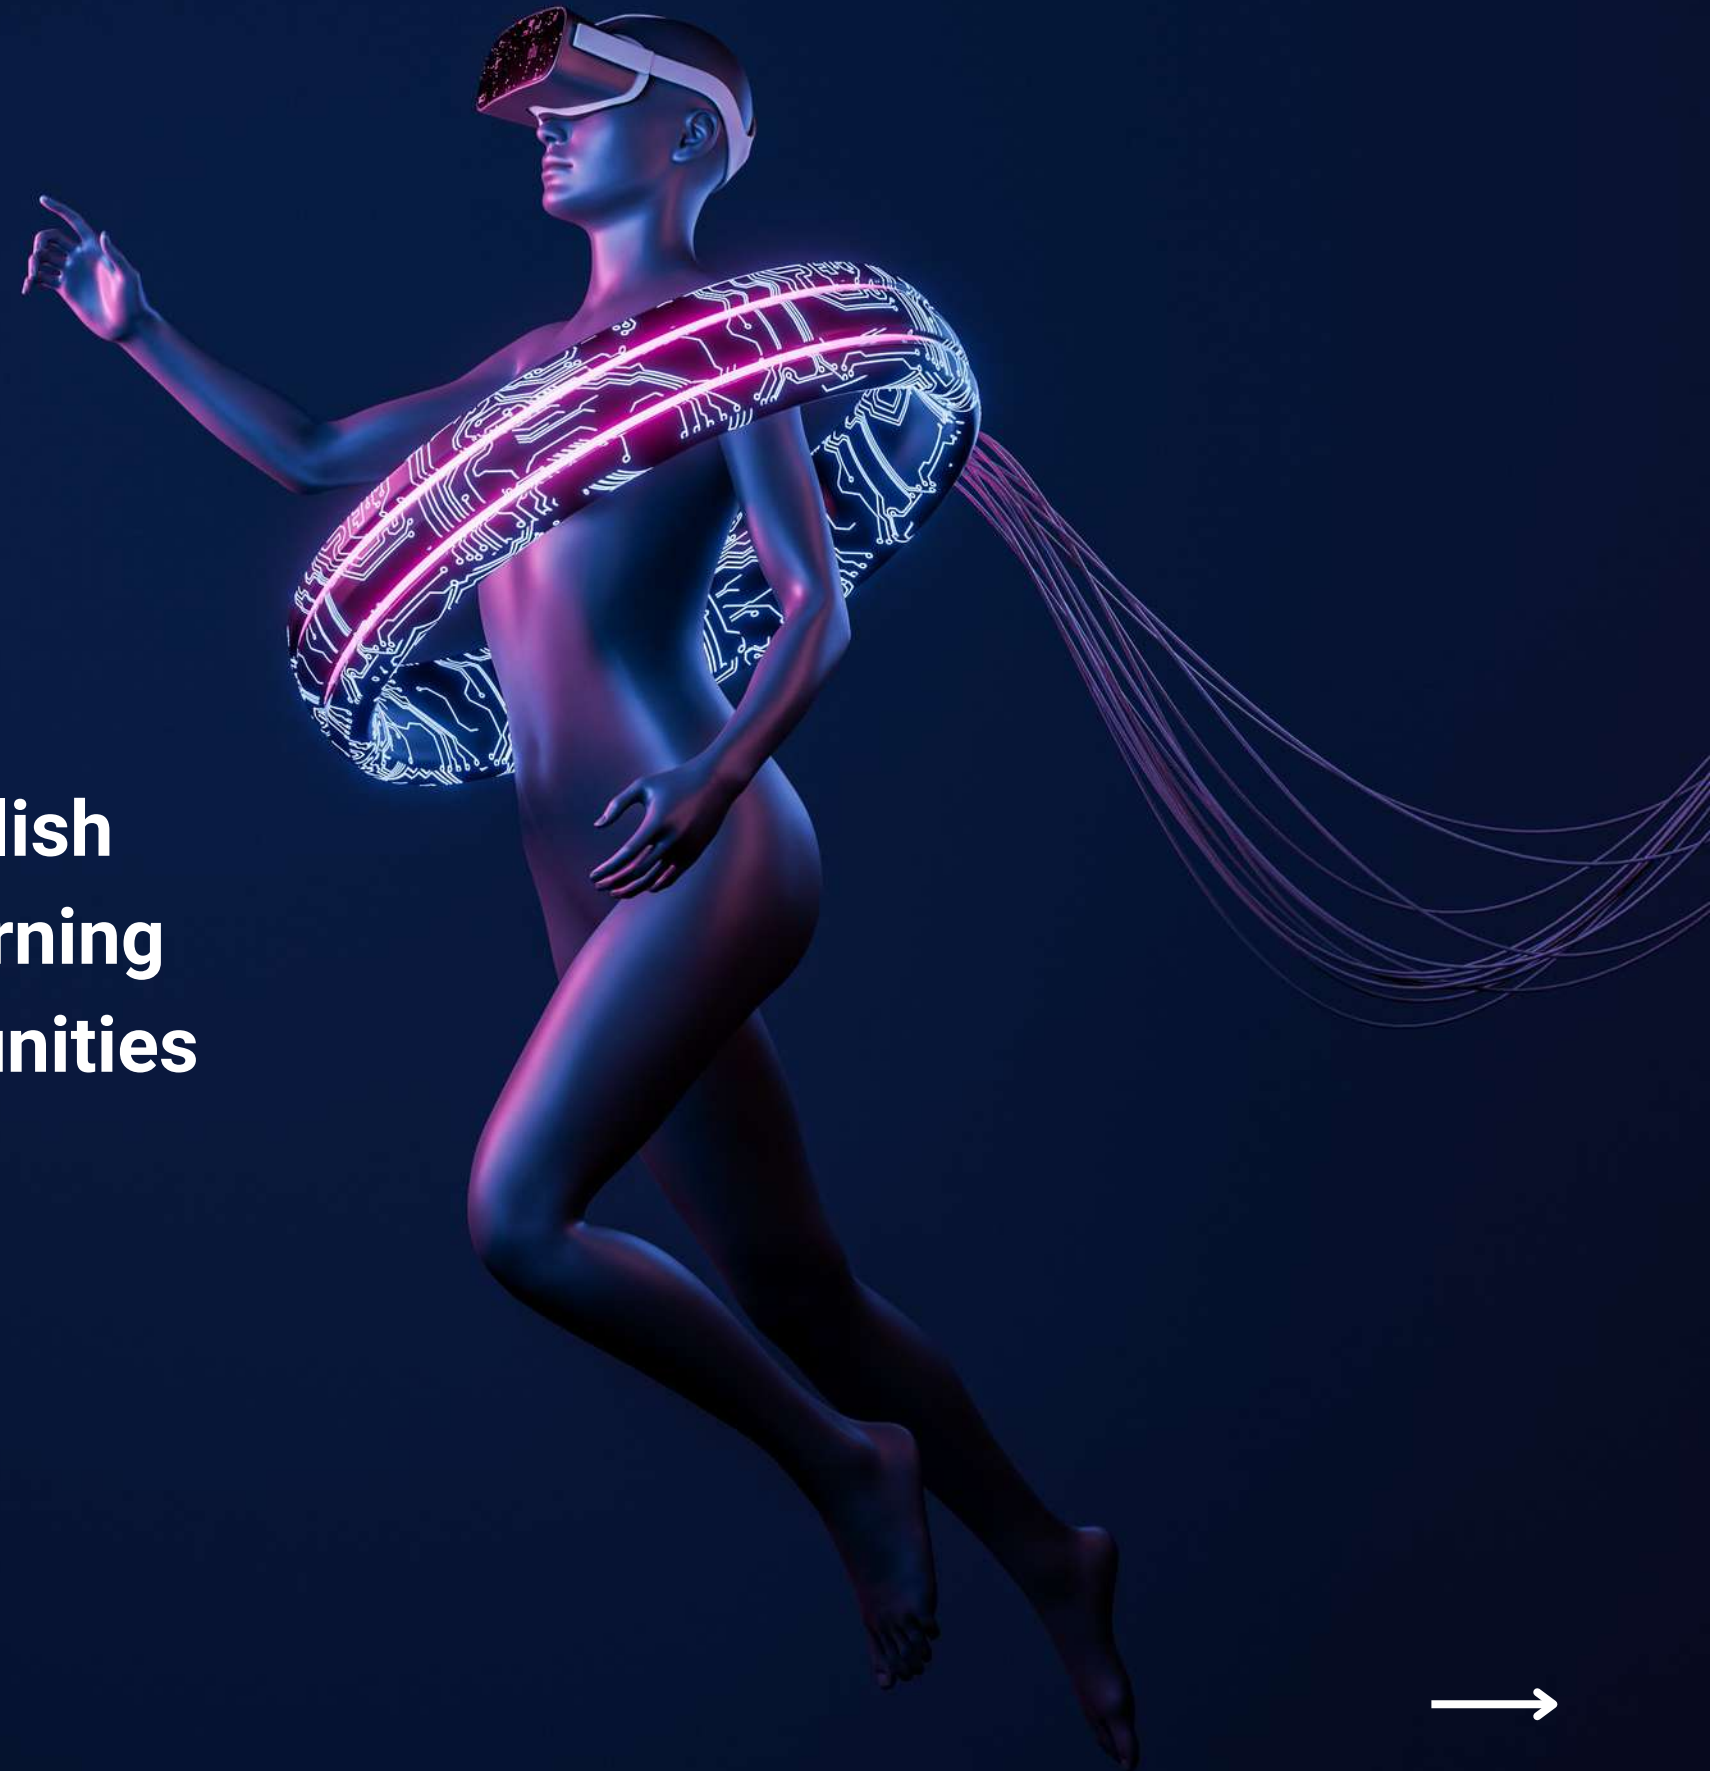

Willing to use gained skills in their further youth work

Active and positive

Proactive mindset

Ability to attend the whole project

Contribute to the multiplying effect

ARMENIA

Accommodation HIN PARVANA

Address str. Hatis 6

Yerevan is the capital of Armenia as well as one of the world's oldest continuously inhabited cities. Situated along the Hrazdan River, Yerevan is the administrative, cultural, and industrial center of the country. It has been the capital since 1918, the fourteenth in the history of Armenia. The capital has 1,107,800 inhabitants. It covers 223 square kilometers.

The accommodation, 3 times meals and coffee breaks are 100% covered by Erasmus+ program regulations between 20th of July 2023 (check in after 14:00) and 31st of July 2023 (check out before 12:00). We will have a room free for Covid emergency isolation.

In Abovyan participants will be hosted in Hin Parvana hotel. The rooms will be shared between 2-3 participants. Some of the rooms have twin beds, others double beds. The rooms have individual bathrooms, also towels will be provided.

Breakfast, lunch and dinner with 2 coffee breaks will be provided. Please note, that it is another culture, so try to adapt and accept the challenge. It is very important to tell us (filling the link) if you have any allergies or if there is something that you do not eat, if you are vegetarian or vegan, have a diet, etc.

If any participant wants to stay longer in Armenia, this is possible up to 2 days before and 2 days after the mobility. Still, all costs related to the extra days (food, accommodation, trips, local transportation or other type of costs which were not made for the project) must be covered by the participants themselves.

There is wifi at the venue, thus we cannot be responsible for the speed. All the participants should understand clearly, that they are here for the training course and not for the virtual life. For solving the problem to contact families and extreme situations we will provide with several simcards (6 GB), which will allow to share hot spot among each other.

Before you hop on a plane/bus/camel/private jet/submarine/Santa's sleigh or a time machine with a parachute check the following possibilities.

You should arrive to the venue before 19:00. We can arrange a bus which will pick you up at the Republic Square next to the drinking fountains (latest 18:00 is possible) .

From the Republic Square an arranged bus will take you to the venue and the price will be divided between the participants (around 5 EUR one way).

Please note that we do not have public transportation connections to that location, so the only way to get there will stay a taxi (around 20EUR).

Please pay attention to the checkin time and do not come later than 19:00 since we have a night agenda prepared for you.

You can arrive either to Yerevan, Gyumri or Tbilisi. From Georgia/Gyumri is possible to arrive directly to the venue. Confirm tickets with us before purchasing.

In case you arrive to Yerevan there is a shuttle bus from the airport to Republic Square every hour (the price per person is 300AMD/0.60EUR).

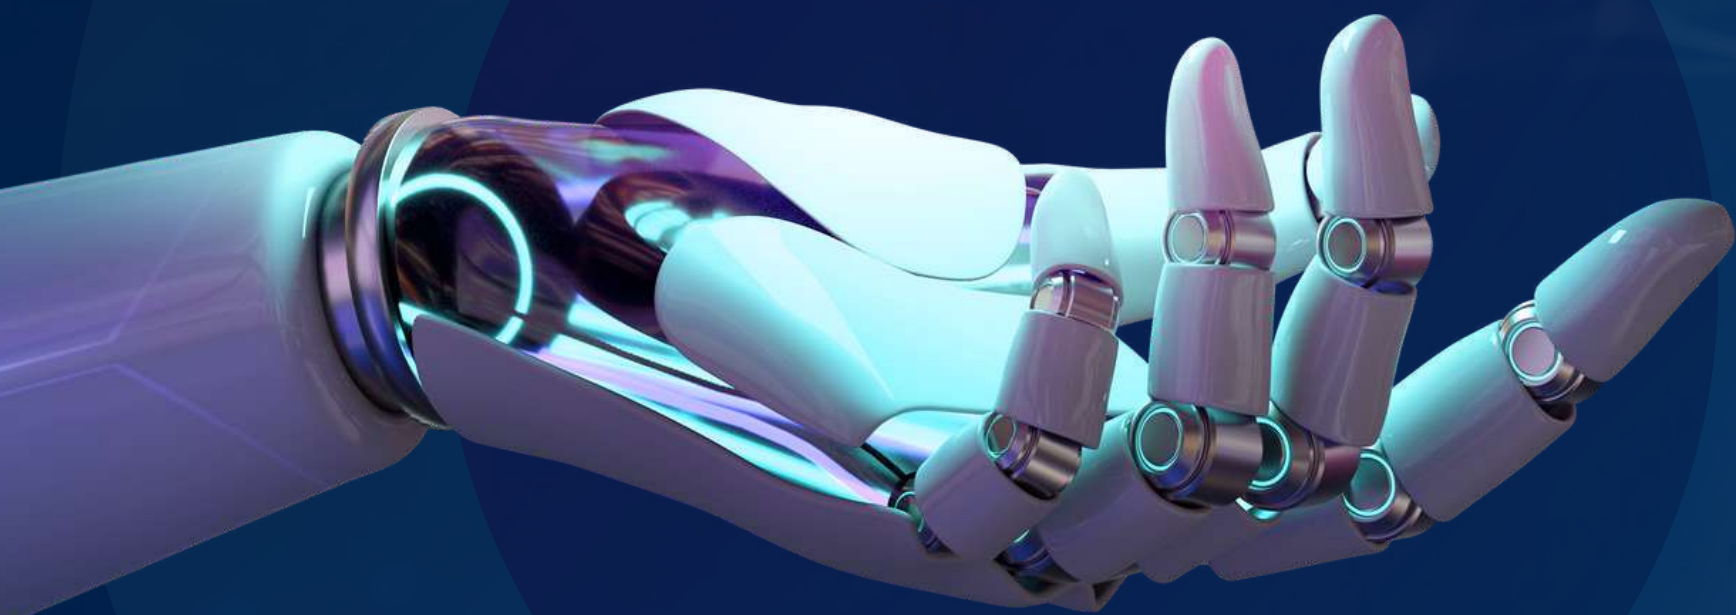

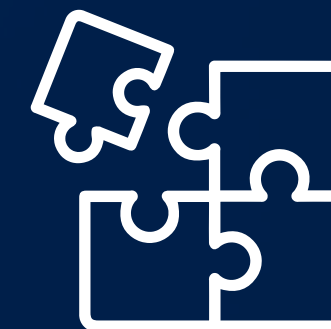

In case you arrive to Tbilisi or Gyumri we will arrange transportation depending on the number of participants. The price per person one way is around 12000AMD/30EUR.

You are allowed to stay in Armenia 2 days before or after the project, which costs are not covered by the project.

Do not exchange lots of money at the airport. The rate is low there. Do not take airport taxis. For Armenia you can download GG application instead and order one or we will help you.

Important

Reimbursement: Travel expenses will be reimbursed up to the reimbursement limit after the project by wire transfer to the organization or one of the participants (upon providing boarding passes and receipts) and also after sending the proves of dissemination activites.

Participants will sign at the end of their mobility a participant statement and the participants' list. A participant aborting the mobility earlier/not participating at least 80% of the mobility will cover all the costs themselves and no reimbursement will be realized. Also, at the end of the mobility, each participant must fill in the individual report, on Mobility tool website in maximum 7 days after the mobility ends, according to Erasmus+ rules.

Be sure that you do have your health insurance for the period of the project for the emergency needs. Take your personal medicines, thus we will have First Aid Kit and some general medicines in case someone asks for it.

Homework

There are no more restrictions to enter the country at the moment. But please be sure to check it before your travel on the webpages of ministry of foreign affairs of Armenia, as well as Georgia (if you are traveling through it). You can leave Armenia freely, but check the regulations of the country you are entering. The PCR test costs around 15Eur (7000AMD) in Armenia.

Each country will have maximum 15 mins for presenting the country. Please avoid presentations and long videos. National food and drinks are warmly welcomed. Be sure to bring also your national flags.

Each group should be sure to guarantee the visibility of the project through the social media and official web page of the organisation, before, during and after the project.

What to pack

-passport

-tickets
boarding passes
